PROFESSIONAL SUMMARY

Final-year Computer Science Engineering student with hands-on experience building production-grade AI, Machine Learning, Data Analytics and Full-Stack platforms. Completed Android App Development Internship using Generative AI technologies and received an Excellent performance rating. Developed enterprise-grade Healthcare Analytics, Financial Analytics, Cyber Security and Computer Vision systems using Python, ReactJS, TypeScript, Flask, TensorFlow, XGBoost, Supabase and Streamlit. Strong foundation in predictive modeling, real-time systems, dashboard development and data-driven decision making.

EXPERIENCE

Android App Development Intern

Feb 2026 – May 2026

MindMatrix (VTU MoU Partner)

- Built Android applications using Kotlin and Jetpack Compose integrated with Generative AI capabilities.
- Worked with Google AI Studio, Google Cloud Labs and Firebase services.
- Developed complete Android application workflows including UI design, testing, debugging and deployment.
- Collaborated on project-based learning modules following industry-standard Android development practices.
- Rated **EXCELLENT** by internship coordinators for outstanding performance.

TECHNICAL SKILLS

Languages	Python, JavaScript, TypeScript, SQL, C, Kotlin
Frontend	ReactJS, HTML5, CSS3, TailwindCSS, Jetpack Compose
Backend	Flask, REST APIs, Socket.IO
Machine Learning	Scikit-Learn, TensorFlow, XGBoost, Random Forest, Prophet, YOLOv8
Data Analytics	Pandas, NumPy, Plotly, Matplotlib, Seaborn, Power BI
Databases	SQLite, MySQL, Oracle SQL, Supabase, Firebase
Cloud & Tools	Google Cloud, Google AI Studio, Android Studio, Git, GitHub, VS Code, Jupyter, Pytest
Concepts	Machine Learning, Data Analytics, Computer Vision, Cyber Security, Business Intelligence, Predictive Analytics, Time-Series Forecasting

PROJECTS

InfernoGuard AI – Fire & Smoke Detection System

[GitHub Repository](#)

- Built enterprise-grade fire and smoke detection platform using YOLOv8, OpenCV, Streamlit and SQLite.
- Achieved **97.3% detection accuracy** with less than **2.1% false positive rate**.
- Engineered real-time processing pipeline supporting webcams, RTSP cameras and uploaded video streams.
- Implemented email, sound and Telegram-based alert systems for industrial safety monitoring.
- Developed secure authentication, audit logs, analytics dashboards and automated testing framework.

Healthcare Analytics AI Platform

[GitHub Repository](#)

- Developed enterprise healthcare analytics platform using Streamlit, SQLite, Scikit-Learn and XGBoost.
- Built predictive models including Logistic Regression, Decision Trees, Random Forest and XGBoost.
- Implemented patient risk classification system for hospital readmission prediction.
- Developed authentication, prediction history tracking, audit logs and KPI dashboards.

- Designed deployment-ready SaaS architecture suitable for production environments.

Financial Operations Analytics

[GitHub Repository](#)

- Built customer churn prediction system using Random Forest and advanced feature engineering.
- Developed revenue forecasting models using Facebook Prophet.
- Created Power BI dashboards for retention, revenue and contract analysis.
- Delivered actionable business insights for customer retention and financial planning.
- Implemented KPI reporting and business intelligence workflows.

Intrusion Detection System Web Portal (Final Year Project)

[GitHub Repository](#)

- Developed full-stack network security monitoring platform using ReactJS, TypeScript, Flask, SQLite and Supabase.
- Implemented real-time packet monitoring using Scapy and WebSocket communication.
- Built threat detection modules for DDoS attacks, SQL Injection, XSS attacks and Port Scanning.
- Developed analytics dashboards for security visualization and threat reporting.
- Implemented secure authentication and role-based access control mechanisms.

EDUCATION

Sri Venkateshwara College of Engineering, Bengaluru Bachelor of Engineering in Computer Science and Engineering	2022 – 2026 CGPA: 7.5
Vijaya Chetana PU College, Hubli Pre-University Education	2020 – 2022 78%
Morarji Desai Residential School, Kodekal Secondary Education	2019 – 2020 93.12%

CERTIFICATIONS

- Android App Development using Generative AI – MindMatrix / VTU (Rated: Excellent)
- Introduction to Deep Learning – Infosys Springboard
- Introduction to Natural Language Processing – Infosys Springboard
- Architecting Cloud Computing Solutions on Microsoft Azure – Infosys Springboard
- Google Cloud Skills Boost – Generative AI Fundamentals
- Google Cloud Skills Boost – Cloud Computing Foundations
- Google Cloud Skills Boost – Data Analytics and Machine Learning Labs

CORE COMPETENCIES

Machine Learning • Data Analytics • Artificial Intelligence • Predictive Modeling • Business Intelligence • Data Visualization • Computer Vision • Cyber Security • Full Stack Development • SQL Databases • Time-Series Forecasting • Problem Solving
